

JAZZ SABBATH LIVE

Jazz Sabbath's first official live album '**Jazz Sabbath Live**' will be released on 20 February

The trio, helmed by longtime Black Sabbath/Ozzy Osbourne keys and guitar player **Adam Wakeman**, present 11 exploratory jazz arrangements based on Black Sabbath tracks from the period 1970-1973.

The album was recorded 25 shows into their 2025 tour at the Paradox Jazz Club in Tilburg, The Netherlands. Jazz Sabbath were promoting their third Billboard-charting album *The 1968 Tapes* on this tour.

"Each night we were really just going where the songs took us, not knowing if Rat Salad would be 7 minutes long or 12, or how many improvisation exercises we could fit into Iron Man, so every show was unique. We feel that this particular night showed us at our best, so we're lucky we captured it on tape."

Jazz Sabbath Live will be available as double LP, double CD, cassette and download/streaming.
